

Price evolution for Passenger transport by railway services since February 2014

A price increase of 2.8% has occurred in February 2014 for Passenger transport by railway (COICOP group 0731). Due to a clerical error, this increase has not been taken into account in February but was included in April 2014.

The table below shows the impact on the February and March HICP sub-indices. For the All-items HICP, the correction is equal to zero for a yearly and monthly price increase computed with a precision of one decimal of percentage. In April, the increase has been taken into account and there is no impact after this date.
